Senior User Experience Designer

PROFESSIONAL PROFILE

Senior UX Designer and Researcher with 7+ years of experience leading user-centered design across complex digital products. Proven track record in end-to-end UX processes—from discovery and user research through wireframing, prototyping, and iterative validation. Skilled at facilitating stakeholder workshops, mentoring design teams, and bridging user needs with business objectives. Experienced in contributing to and evolving design systems, working with global cross-functional teams in agile environments, and driving data-informed design decisions. Passionate about accessibility, scalable design, and creating meaningful digital experiences.

EXPERIENCE

HP

Apr 2022 - Present

Lead Product Designer & UX Researcher

- Led discovery activities, user research initiatives, and UX strategy formulation for new digital service offerings across global teams, owning UX workstreams end-to-end.
- Designed and delivered wireframes, high-fidelity prototypes, and interaction models in Figma, iterating based on user testing insights and stakeholder feedback.
- Facilitated workshops with stakeholders and cross-functional teams to align user needs with business objectives and prioritize design decisions.
- Drove continuous usability testing, A/B testing, and validation cycles, translating qualitative and quantitative research into actionable design improvements.
- Actively contributed to and helped evolve the internal design system, ensuring consistency, accessibility, and scalability across products.
- Served as Scrum Master for the design team, organizing sprint planning, retrospectives, and promoting agile best practices across the organization.
- Mentored junior designers through design reviews, knowledge sharing sessions, and governance of design documentation.
